

Production Employment

To come true, dreams need opportunity and support. These are what MARC provides to adults with developmental and intellectual disabilities

Integration. MARC provides additional services that include personal care, education, vocational training, recreation, social interaction, nutrition, and sensory stimulation to promote business success.

Inspiration. Production work provides opportunities for clients to acquire skills and abilities to reach their employment goals.

Serving throughout the greater Madison area, including Stoughton and Mt. Horeb.

The heart of Human Services

MARC Production Employment

Benefits for Individuals with Disabilities

- MARC matches production opportunities to each individual's strengths and abilities
- Working within MARC facilities creates the flexibility that many of our clients require
- One on one training and guidance is given to help individuals learn new skills
- Production work is broken down into smaller steps so all clients are able to participate in paid work activity
- Production work prepares individuals for other employment opportunities by providing pre-vocational skills

Services Offered

MARC offers various types of work provided by and for local businesses. Some of these include:

- Product assembly
- Product packaging
- Labeling and collating marketing pieces

Benefits to Employers

- Federal and state tax incentives
- Strengthens community and consumer ties
- Provides dedicated employees with a strong commitment to work
